

John Le

Software developer

EDUCATION

Grand Valley State University

B.S. Computer Science, Minor in Math

August 2026

GPA: 3.98

Relevant Coursework

- Web Application Programming
- Mobile Application Development
- Secure Software Engineering
- Databases
- Data Communications

PROJECTS

Color Generator - May 2025

- Created website using Express, HTML/CSS, and JavaScript
- Users can generate random color palettes and login to save them
- Used API from Colormind that uses AI to fetch colors

Portfolio Website - August 2025

- Created using React, Tailwind, and Vite
- Displays information about myself and various projects
- Continuously being updated as more projects are made

Weather App - July 2024

- Created a weather application that lists details about the weather in any searchable city
- Used Flask framework to link the HTML and CSS frontend to the Python backend
- Fetched weather data from cities using OpenWeatherMap API
